Subject Index

A BACKWARD GLANCE: brief history of AGS, and articles from Volume 1, JAGS, 541
ABUSE: see Mental; Physical; Socioeconomic
ACCIDENTS: see Trauma
ACETOMINOPHEN: see Drugs (analgesic/anti-inflammatory agents)
ADH: see Hormones
ADMISSION PROFILE TESTS: see Medical; Tests
ADRENAL: see also Hormones (steroids)
—aldosterone: see Hormones
—corticoids: see Hormones
—pheochromocytoma in an "elephant man," 129
ADVERSE drug reactions: see Drugs
AGE: see also Geriatrics
—aged women; role of vaginal hysterectomy in, 426
—aged patients with pressure ulcers; comparison of antibacterials in treatment, 232
—ageist and sexist assumptions re the menopause; adaptive function, 349
—aging and polymorphonuclear functions, 391
—aging comes of age, 542
—Aging Game; a new teaching method in geriatric medicine, 576
—aging patients; curricular model for first-year medical students, 135
—aging process, and sex, 385
—Alzheimer's disease; problems of families; support groups, 80
—Alzheimer's disease; quant. cerebral amyloid angiopathy vs. senile plaques, 61
—American Geriatrics Society: see American Geriatrics Society
—and quant. bone assessments; bone loss, osteoporosis, 97
—arteriosclerosis; atherosclerosis; see also Vascular system; Heart
—at-risk elderly; social support and alternatives to institutionalization, 308
—brief history of AGS; and articles from Volume 1, JAGS, 541
—cancer: see also Cancer
—cardiovascular disease: see also Heart; Vascular system
—cerebrovascular disease: see also Brain; Vascular system
—chronic brain syndrome: see also Mental; Brain
—dementia, age, gender, and funct. status re mortality in nursing homes (New York and Tokyo), 513
—economics: see also Socioeconomics
—effect on active and inactive plasma renin in hypertension, 379
—elderly depressed patients; social antecedents of psychopath, changes, 14
—elderly diabetic women; chlorpropamide-induced inapprop. ADH secretion, 334
—elderly "dizzy" patients; hemodynamics of carotid circulation, 402
—elderly hospital patients; eval. of clinical use of serum digoxin assays, 215
—elderly hypothyroid woman; tibial compartmental syndrome after hypothermia, 77
—elderly patients; assessment at home by physicians, 398
—elderly patients; bronchogenic cancer and chr. lymphatic leukemia, 40
—elderly patients; isotopic scanning of bone in diagnosis of osteomalacia, 45
—elderly patients; overdiag. of dementia, 407
—elderly patients with infected aortic aneurysm, 269
—elderly patients with laryngeal cancer plus bronchogenic cancer, 370
—elderly patients with severe bact. pneumonia; transtracheal aspiration, 228
—elderly patients with synchronous dual primary lung cancer, 38
—elderly patients with urinary incontinence; double-layered, launderable (Kylie) bed sheet, 520
—elderly population; physiol. and drug effects on serum uric acid level, 273
—elderly population; screening for hypertension; Dunedin program, 123
—elderly psychiatric patients; prevention of high mortality re pneumonia and CV disease, 181
—elderly stroke patients; morbid anatomy of multiple lesions in, 246
—elderly subjects, short Functional Assessment Inventory in 4 service settings, 433
—elderly subjects with e. hypertension; plasma aldosterone response to angiotensin II, 302
—elderly woman; fatal digoxin-quinidine interaction, 422
—elderly women; management of incarcerated pessary, 325
—"elephant man" aged 65, 129
—geriatric clinic; consistency in patients' health and treat. expectations, 278
—geriatric evaluation unit; improved care, 531
—geriatric hospital; diagnosis of occult GI lesions by stool guaiac testing, 473
—geriatric hospital patients; falls, fractures, accidents, 322
—geriatric hypochondriasis; situational factors, 37
—geriatric long-term facility; the consultant pharmacist and analgesic/anti-inflammatory drug usage, 429
—geriatric long-term patients; monitoring of digoxin therapy, 263
—geriatric long-term patients; urinary dysfunction; prevalence and patterns, 211
—geriatric medical education; developments since the 1976-77 AGS Conference, 1
—geriatric patient; osteochondral graft for osteonecrotic femoral condyle, 186
—geriatric patients; a standardized approach to parenteral nutrition, 172
—geriatric patients; brief life-graph technique, 373
—geriatric patients; measured impact of intra-institutional relocation, 86
—geriatric patients; phenytoin in venous vs. capillary blood, 34
—geriatric patients: transient euthyroid "thyroxine toxicosis," 331
—geriatric patients with chr. bacteruria; predictability of methenamine efficaci, 236
—geriatric patients with complicated biliary-tract disease; endoscopic papillotomy, 70
—geriatrics, gerontology: see also Geriatrics
—impaired elderly; multi-specialty clinic; treatment results, 579
—importance of room-mate placement in a skilled nursing facility, 418
—incapacitated aged; ethical confrontations, 241
—institutional elderly and diuretics; case against routine K prescribing, 145
—interaction of age, performance and hypnotics in the sleep of insomniacs, 508
—later years; pneumonia in, 481
—man aged 90; onset of hairy cell leukemia, 460
—man aged 90; quinidine therapy and digitalis toxicity, 31
—medical care: see also Medical; Medicine; Mental; Health; Hospitals; Nursing homes; Physicians
—memory; self- vs. psychometric ratings; hypochondriasis, 537
—mental disorders: see also Mental

AUSTRIAN, ROBERT: Recipient for 1981 of the Willard O. Thompson Award of the American Geriatrics Society, 479
AUTHOR INDEX TO VOLUME XXIX, 587
AUTHORS; INFORMATION FOR: see Journal of the American Geriatrics Society, advertising section, various months throughout year
AWARDS: see American Geriatrics Society, awards and recipients

BACTERIA: see also Infections
—bacterial L forms and other pathogens re urinary-tract infections, 359
—bactericidal and ingestive properties of polymorphonuclear cells re aging, 391
—comparison of 2 antibacterials and NaCl in treat. of pressure ulcers; quant. bacterial counts, 232
—in severe pneumonia identified through transtracheal aspirate staining, 228
BACTERIURIA: see Urinary tract; Urine; Infections
BARBITURATES: see Drugs (incl. hypnotics)
BED SHEET (Kylie) for urinary incontinence, 520
BEDSORES: see Skin
BEESON, PAUL B, MD, new Editor in Chief of JAGS: see Editorial masthead page (Jan.–Dec.)
BEHAVIORAL disorders: see Mental
BETADINE SOLUTION: see Drugs (povidone-iodine)
BILIARY TRACT: see Liver and Gall Bladder
BLADDER, urinary: see Urinary tract
BLEEDING: see Vascular system; Blood
BLOCK, heart: see Heart (disorders)
BLOOD: see also Vascular system; Heart; and under constituent involved
—anemia re sliding hiatal hernia, 463
—antibodies re pneumonia, 481
—bleeding, cerebral (incl. hematoma) re amyloid angiopathy, 151
—calcium: see Bones and Joints; Calcium
—cholesterol and triglycerides re obesity in hypertension, 25
—creatinine and K levels in monitoring of digoxin therapy, 263
—creatinine, complement and hematocrit in acute vs. fulminating glomerulonephritis, 108
—embolism: see Vascular system
—erythropoietic protoporphyria and hemolytic anemia in an octogenarian, 316
—flow: see also Vascular system; Heart
—glucose admission test re prognosis, 206
—glucose see also Diabetes
—hemoccult (guaiac) testing for GI bleeding lesions, 473
—hemorrhage: see Vascular system
—hyper- or hypoglycemia: see Diabetes
—hypernatremia and dehydration; relation to infection and mortality, 177
—hypokalemia, diuretic-induced, 145
—iodothyronines in the elderly; T_3 and FT_3 index, 19
—leukemia, chronic lymphatic, and bronchogenic cancer, 40
—leukemia, hairy cell; development in 90-year-old man, 460
—plasma active and inactive renin in hypertension; effect of age; furosemide, 379
—plasma aldosterone response to angiotensin II in e. hypertension, 302
—plasma and RBC values during and after K therapy, and after diuretics, 145
—plasma renin activity re obesity in hypertension; effect of thiazide, salt, diet, 25
—polymorphonuclear leukocyte function and aging, 391
—pressure: see Vascular system; Heart
—quinidine and digoxin levels in case of toxicity, 31
—serum aldosterone re obesity in hypertension; effect of thiazide, salt, diet, 25
—serum Ca, P and hormone in hyperparathyroidism, 343
—serum digoxin assays; evaluation, 215

—serum digoxin re fatal digoxin-quinidine interaction, 422
—serum thyroid assays; transient euthyroid "thyroxine toxicosis," 331
—serum thyroid hormone pattern in "failing thyroid syndrome," 221
—serum thyroid hormones: see also Thyroid; Hormones
—serum uric acid and creatinine; physiol. and drug effects on in the elderly, 273
—sodium, urea, T_3, Hgb, alb., glucose; admission tests for prognosis in the elderly, 206
—thrombosis: see Vascular system
BONE AND JOINTS
—arthritic disease; use of analgesic/anti-inflammatory drugs; the consultant pharmacist, 429
—bone mass in athletes; body calcium and K, 104
—cervical spondylosis as cause of para- or quadriplegia, 126
—chondrocalcinosis of knee; prevalence in patients age 50 or over, by age and ethnic groups, 189
—"elephant man" of Cambridge, 129
—fractures re involutional osteopenia, 105
—osteochondral graft for osteonecrosis of femoral condyle, 186
—osteomalacia; isotopic scanning of bone in diagnosis, 45
—osteomalacia vs. osteoporosis; bone mineral content and biopsy findings re diagnosis, 490
—osteoporosis; rational approach to diagnosis, 490
—osteoporotic fractures; prediction problems, 97
—quant. assessments of bone; applications and expectations, 97
—shoulder-hand syndrome; importance of early diagnosis and treatment, 58
—skeletal health and exercise; involutional bone loss, 104
—vertebral comp. fracture and back pain; diagnosis re osteoporosis, 490
BOOKS: 240, 383, 539, 586
BOWEL: see Gastrointestinal tract
BRAIN: see also Mental; Nervous system
—alcohol problems in the elderly; atypical dementia, falls, 131
—Alzheimer dementia; the family and the health care delivery system, 568
—Alzheimer's disease patients; problems of care, 80
—amyloid angiopathy vs. senile plaques; quant. clinicopath. study, 61
—amyloidosis vs. senile plaques, and dementia, 158
—bleeding (incl. hematoma) from amyloid angiopathy, 151
—cerebral amyloid angiopathy in the elderly; relation to other CV lesions (incl. plaques), 151
—cerebrovascular disease; hypertension; the time has come to treat, 193
—cerebrovascular disease: see also Vascular system
—chronic brain syndrome: see also Mental
—dementia, age, gender, re mortality in nursing homes (New York and Tokyo), 513
—dementia; overdiagnosis in elderly patients, 407
—"dizzy" elderly patients; hemodynamics of carotid circulation, 402
—EEG, EOM and other tests for sleep-wake disorders in the elderly, 289
—EEG sleep and balance performance under hypnotic drug conditions, 508
—in senile dementia; quant. clinicopath. study, 158
—old age and the vices, 550
—organic brain syndrome: see also Mental
—parkinsonism; bromocriptine therapy vs. levodopa; a review, 251
—parkinsonism, reversible, re perhexiline maleate therapy for angina, 259
—seizure disorders in geriatric patients; phenytoin in venous vs. capillary blood, 34
—senile plaques vs. clinical symptoms of dementia, 158
—sleep-wake disorders in the elderly (incl. apnea and restless legs syndromes), 289
—stroke patients; cerebral and other lesions in; causes of death, 246
—stroke: see also Vascular system; Nervous system; Mental
—weights in octogenarians, by sex and pathologic changes, 450
BREAST: see also Ovary; Uterus
—cancer; stage-to-age data, 55
BROMOCRIPTINE: see Drugs
BRONCHI: BRONCHITIS: see Lungs and Bronchi
BRONCHOGENIC CARCINOMA: see Lungs and Bronchi; Cancer
BRONCHOPNEUMONIA: see Lungs and Bronchi
BUNDLE-BRANCH block: see Heart (disorders)
BURNS: see Skin

CALCIUM: see also Bones and Joints
—and P of serum in hyperparathyroidism, 343
—calcium mass, body vs. bone, in diagnosis of osteoporosis, 490
—calcium pyrophosphate dihydrate deposition disease (CPPD) of knee in patients aged 50 or over, 189
—of body re age and marathon runners, 104
CANCER: see also Tumors; Blood (leukemia)
—as cause of death in stroke patients; morbid anatomy study, 246
—carcinoma, bronchogenic, and chr. lymphatic leukemia, 40
—malignancy and spinal cord lesions in the elderly, 126
—neoplasms and periph. neuropathy; nerve conduction studies, 49
—of larynx with synchron. or metachron. bronchogenic cancer, 370
—old age and the vices; lung cancer re smoking, 550
—rectal, in the elderly; electrocoagulation + radiation vs. radical surgery, 10
—stage-to-age relationships (according to sites) in cancer screening of the elderly, 55
—synchronous dual primary lung carcinomas in heavy smokers, 328
CAPILLARIES: CAPILLARY: see Vascular system; Blood
CARBOHYDRATE METABOLISM: see also Diabetes
—dietary carbohydrate: see also Diet; Nutrition
—isotonic glucose by hypodermoclysis, 583
—parenteral nutrition; standardized approach, 172
—serum glucose admission test re prognosis, 206
CARCINOMA: see Cancer
CARDIAC; CARDIOVASCULAR: see Heart; Vascular system

DIRECTORS, medical: see Physicians; Hospitals; Nursing homes
DIURETICS: see Drugs
DIZZINESS: see Brain
DOCTORS: see Physicians
DOPPLER: see Methods (ultrasonic)
DRUGS: see also Hormones
—adverse drug reactions among the elderly; a reassessment, 525
—analgesic/anti-inflammatory drug usage in a long-term facility; the consultant pharmacist, 429
—antibacterials and pneumonia, 481
—antibiotic therapy re nosocomial pneumococcal pneumonia, 319
—antibiotic therapy re systolic murmurs, 498
—antibiotics re high mortality and infections assoc'd with hypernatremia, 177
—antihypertensive therapy; diuretics, vasodilators, beta-blockers, 193
—antimicrobial agents and other drugs for urinary-tract infections, 359
—as cause of peripheral neuropathy; nerve conduction studies, 99
—aspirin and serum uric acid, 273
—barbiturates, 550
—bromocriptine therapy in parkinsonism; benefits and adverse reactions; a review, 251
—chloropropamide-induced inapprop. ADH secretion, 334
—cimetidine and antacids for gastrointest. bleeding in burn patients, 74
—codeine, propoxyphene, aspirin, acetominophen and combinations; pharmacist's role in long-term facility, 429
—digitalis toxicity and quinidine, 31
—digoxin-quinidine interaction; fatal, 422
—digoxin serum assays; eval. of clinical use, 215
—digoxin therapy; monitoring of, in 2 long-term facilities, 263
—dihydroergotoxine mesylate (Hydergine) + psychologic treatment for senile dementia, 164
—diuretics and serum uric acid, 273
—diuretics (incl. Aldactazide) and the institutional elderly; case against routine K, 145
—drug and physiologic effects on serum uric acid in the elderly, 273
—drug therapy implications of slowed gastric emptying rate in the elderly, 201
—estrogens: see Hormones
—for urinary-tract infections; chemotherapy and prophylaxis, 359
—furosemide and ambulation in study of age effect on plasma renins in hypertension, 379
—hormones: see Hormones
—hypnotics and age re sleep of insomniacs, 508
—hypnotics (barbiturates); old age and the vices, 550
—ketazolam; effect in geriatric insomnia, 508
—levodopa vs. bromocriptine in parkinsonism, 251
—medication neglect re abuse of the elderly, 465, 503
—methenamine efficacy predicted by urine pathogen and pH, 236
—perhexiline maleate as a cause of reversible parkinsonism and periph. neuropathy, 259
—pharmacists; role of: see also Pharmacists; Pharmacy
—pharmacologic + psychologic treatment of senile dementia, 164
—phenytoin in venous vs. capillary blood of geriatric patients, 34
—physiologic saline vs. other pharm. agents in treatment of pressure ulcers, 232
—polypharmacy re adverse drug reactions, 525
—potassium; case against routine prescribing when using diuretics, 145
—povidone-iodine vs. other agents in treatment of pressure ulcers, 232
—prescribing patterns improved on new geriatric eval. unit, 531
—probenecid or allopurinol and serum uric acid, 273
—quinidine-digoxin interaction; fatal, 422
—quinidine precipitating digitalis toxicity, 31
—silver sulfadiazine (Silvadene Cream) vs. other agents in treatment of pressure ulcers, 232
—steroid therapy: see Hormones
—thiazide; effect on endocrine activities re obesity in hypertension, 25
—thyroid dosage adjustment re age and body weight, 221
—treatment for previously undetected illness in the impaired aged, 577
—vaccines re pneumonia, 481
DUNEDIN program: see Vascular system (hypertension)
DUODENUM: see Gastrointestinal tract

EAR: auditory acuity and performance on the MSQ in the elderly
ECG: see Heart
ECHOCARDIOGRAPHY: see Heart
ECONOMICS: see Socioeconomics
EDUCATION: see also Health; Medical; Physicians; Community
—about the elderly, 557

—functional assessment of the elderly in 4 service settings, 433
—geriatric patients' health and treatment expectations, 278
—geriatrics; the Swiss experience, 438
—health care delivery system and the family of the Alzheimer dementia patient, 568
—income; education; as factors in use of health services, 354
—increased interest in geriatrics, 555
—life expectancy of older men; masculine gender role, 297
—material and fiscal abuse of the elderly, 465, 503
—medical care: see also Health; Medical; Medicine; Mental; Hospitals; Nursing homes; Physicians
—mental aspects: see also Mental
—multi-specialty clinic for the impaired elderly and their families, 579
—new social roles in treatment of the depressed elderly, 14
—nursing homes and hospitals: see also Nursing homes; Hospitals
—old age and the vices, 550
—physicians and nurses: see also Physicians; Nurses; Hospitals; Nursing homes
—placement and care improved re geriatric eval. unit; costs, 531
—poor inner-city residents in the 1980 Memphis heat wave, 337
—problems of families caring for Alzheimer patients; support groups, 80
—public knowledge of sex and the aging process, 385
—reduced nursing-home costs with use of Kylie bed sheet for urinary incontinence, 520
—relocation, intra-institutional; measured impact upon geriatric patients, 86
—reporting of physical and mental symptoms of the elderly, 442
—service workers' action team (SWAT) for the elderly, 411
—situational factors in geriatric hypochondriasis, 37
—social support and alternatives to institutionalization for the at-risk elderly, 308
—The Aging Game; new teaching method re old age, 576
—the future for the elderly, 557
SODIUM
—hypernatremia; relation to infection and mortality, 177
—saline, physiologic, vs. other agents in treating pressure ulcers, 232
—salt; effect on endocrine activities re obesity in hypertension, 25
—serum sodium admission test re prognosis, 206
—sodium-restricted elderly with e. hypertension; plasma aldosterone response to angiotensin II, 302
SPLEEN: splenomegaly in "elephant man," 129
SPINAL CORD: see Nervous system
STEROID therapy: see Hormones; Drugs
STOMACH: see Gastrointestinal tract
STRESS: see Mental; Physical
STROKE: see Brain; Vascular system; Mental; Nervous system
STUDENTS: see Education
SUBCUTANEOUS: see Skin
SUBJECT INDEX TO VOLUME XXIX, 590
SUICIDE: see Mortality; Mental (depression)
SULFADIAZINE, silver: see Drugs
SURGERY: see also specific disease or system
—aged patients: see also Age; Geriatrics
—burns in older patients, 74
—cancer: see also Cancer; Tumors
—closure of pressure ulcers; preparation for; comparison of antibacterials, 232
—electrocoagulation + radiation vs. radical surgery for rectal cancer, 10
—endoscopic papillotomy in the elderly with complicated biliary-tract disease, 70
—for deep post. compartmental syndrome (talipes eq.) occurring after hypothermia in aged hypothyroid woman, 77
—for intermittent claudication; importance of preop. different'n of neurologic and vascular types, 43
—for perf. peptic ulcer in the elderly, 224
—for spinal cord tumors or cerv. spondylosis causing para- or quadriplegia, 126
—gastrointestinal: see also Gastrointestinal tract
—hysterectomy, vaginal, with spinal anesthesia; role in the aged woman, 426
—infected aortic aneurysm, 269
—osteochondral graft for osteonecrosis of femoral condyle, 186
—surgical mortality rates: see also Mortality
—transtracheal aspiration in severe pneumonia, 228
SWAT (service workers' action team): see Mental; Socioeconomic
SWISS experience in geriatrics, 438
SYSTOLIC murmur: see Heart

TALIPES equinovarus: see Muscle (tibial compartmental syndrome); Legs
TEACHING: see Education
TECHNIQUES: see Methods; Tests
TEMPERATURE
—heat wave, 1980, in Memphis, 337
—hypothermia followed by tibial compartmental syndrome in a hypothyroid woman, 77
TESTIS: see also Hormones; Sex
—males versus females: see also Sex
—masculine gender role; its implications for life expectancy of older men, 297
—prostate: see Urinary tract (infections)
—sex and the aging process, 385
—sex hormones: see also Hormones
—veterans; improved care on a geriatric eval. unit, 531
TESTS: see also Methods; Mental
—admission profile tests for prognosis in the elderly, 206
—cardiac: see Heart
—EEG: see Brain
—for differential diagnosis of osteoporosis, 490
—guaiac stool testing for occult GI lesions, 473
—in urinary-tract infections, 359
—MSQ performance re auditory acuity, 476
—noninvasive carotid-artery testing in "dizzy" elderly patients, 402
—of thyroid function in euthyroid elderly; inter-

pretation, 19
—of thyroid function: see also Thyroid
—psychologic tests: see also Mental
—self-ratings of memory vs. psychometric ratings of memory and hypochondriasis, 537
THIAZIDE: see Drugs
THIOFLAVIN-S: see Methods (amyloid)
THOMPSON, WILLARD O.:
—Award of the American Geriatrics Society for 1981, to Robert Austrian, MD, 479
—aging comes of age (reprinted from Vol. 1, JAGS), 542
THROMBOSIS: see Vascular system; Brain; Heart
THYROID: see also Hormones
—euthyroid "thyroxine toxicosis"; transient, 331
—"failing thyroid syndrome"; serum hormone pattern, 221
—hypothyroid elderly woman; tibial compartmental syndrome after hypothermia, 77
—hypothyroidism, clinical, in the elderly; preventable?; adjustment of thyroid dosage, 221
—hypothyroidism; transient serum hormone variations, 331
—iodothyronines of serum in the elderly; T_3 and FT_3 index, 19
—serum T_3 admission test re prognosis, 206
—T_4, T_3, rT_3, T_2 and indices in the elderly without thyroid disease, 19
—thyroid disease and serum uric acid, 273
THYROXINE (T_4): see Hormones; Thyroid
TIBIAL: see Legs
TOBACCO: see Smoking
TOKYO model vs. NEW YORK model of nursing homes re mortality; dementia, age and gender factors, 513
TOMOGRAPHY, computerized: see Brain; Methods
TOXICITY: see Drugs (incl. adverse reactions)
TRAINES, MARK L: Recipient of Edward Henderson Memorial Fund Student Award, 479
TRANQUILIZERS: see Drugs; Mental
TRANSTRACHEAL ASPIRATION: see Lungs and Bronchi; Methods
TRAUMA
—burns in older patients; treatment; prevention, 74
—falls, fractures and other detrimental incidents in geriatric hospital patients, 322
—falls re alcohol problems, 131
—fractures; dislocations: see also Bones and Joints
—mental: see Mental; Brain
—surgical: see Surgery
TRIIODOTHYRONINE (T_3): see Thyroid; Hormones
TUMORS: see also Cancer
—myxoma, left atrial; diagnosis by echocardiography, 453
—neurofibromatosis and pheochromocytoma in an "elephant man," 129

ULCERS: see also Skin
—decubitus (bedsores); pressure ulcers: see Skin
—duodenal, occult, detected by stool guaiac testing, 473
—peptic, perforated, in the elderly; improved x-ray and endoscopic diagnosis, 224
UREA: see Blood; Protein
UREMIA: see Kidney
URIC ACID of serum; selected physiol. and drug effects on, in the elderly, 273
URINARY TRACT: see also Kidney; Urine
—bladder cancer; stage-to-age data, 55
—chronic bacteriuria; predictability of methenamine efficacy, 236
—infections; etiology, microbiology, pathophysiology, diagnosis and management, 359
—prostatic infections, 359
—urinary dysfunction (incl. incontinence) in geriatric long-term patients; prevalence and patterns, 211
—urinary incontinence in nursing homes; double-layered, launderable (Kylie) bed sheet for, 520
—urinary symptoms re uterine prolapse, before and after hysterectomy, 426
URINE: see also Kidney; Urinary tract
—porphyria in the elderly, 316
—proteinuria and hematuria in acute vs. fulminating glomerulonephritis, 108
—type of pathogen and pH re predictability of methenamine efficacy, 236
—urinary dysfunction: see Urinary tract
UTERUS AND VAGINA: see also Ovary
—cancer; stage-to-age data, 55
—menopause; adaptive function of; devil's advocate position, 349
—pessary, incarcerated; management with estrogen cream, 325
—prolapse in the aged woman; treatment by vaginal hysterectomy, 426

VACCINES: see Drugs; Immunology
VAGINA; VAGINAL: see Uterus and Vagina
VASCULAR SYSTEM: see also Heart; Blood
—amyloid angiopathy vs. senile plaques, cerebral; quant. clinicopath. study, 61
—angiopathy, amyloid, cerebral; relation to other CV lesions, 151
—brain: see also Brain
—capillary vs. venous blood; phenytoin levels in geriatric patients, 34
—cardiovasc. changes in octogenarians re heart weight, 572
—cardiovasc. disease; prevention of high mortality among geropsychiatric patients, 181
—cardiovascular: see also Heart
—carotid-artery circulation; hemodynamics of in elderly "dizzy" patients, 402
—cerebral vessels in a study of brain weights in octogenarians, 450
—cerebrovascular: see also Brain
—claudication, intermittent; different'n of vascular and neurologic types re therapy, 43
—essential hypertension; changes in endocrine activities re obesity; effect of thiazide, salt, diet, 25
—essential hypertension; plasma aldosterone response to angiotensin II, 302
—hypertension; effect of age on active and inactive plasma renin; furosemide, 379
—hypertension in an elderly population; Dunedin screening program, 123
—hypertension in the elderly; therapy; cerebro- and cardiovasc. risk factors, 193
—hypertension, serum uric acid and creatinine clearance, 273
—hypotension, acute, re bromocriptine therapy, 251
—hypotension, postural, re falls and accidents, 322
—infected aortic aneurysm; diagnosis; management, 269
—infusion of parenteral nutrition mixture; standardization, 172
—old age and the vices, 550
—plaques (senile, cerebral) and amyloidosis re clinical symptoms of dementia, 158
—renin: see also Kidney; Blood
—stroke patients; vascular and other lesions, 246
—stroke: see also Brain; Mental
—vascular dementia as a mortality factor in nursing homes (New York and Tokyo), 513
—vascular status re systolic murmurs; hemodynamic maneuvers, 498
VEINS; VENOUS: see Vascular system
VICES, and old age, 550
VISION; VISUAL: see Eye

WATER
—antidiuretic hormone (ADH); chlorpropamide-induced inapprop. secretion, 334
—dehydration and hypernatremia re infection and mortality, 177
—dehydration as factor in admission lab. tests for prognosis in the elderly, 206
WEIGHT: see also Obesity; Nutrition
—body weight and age re adjustment of thyroid dosage, 221
—of brain in octogenarians, 450
—of heart in octogenarians, 572

X-RAYS: see Radiation

YOUNG-OLD: see Age

Contents of Volume XXIX

NO. 1, JANUARY 1981

Geriatric Medical Education: Developments Since the American Geriatrics Society Conferences on Geriatric Education, 1976–77. *William Reichel* 1
Local Treatment (Electrocoagulation) for Carcinoma of the Rectum in the Elderly. *Bruce S. Gingold* 10
The Depressed Patient: Social Antecedents of Psychopathologic Changes in the Elderly. *Kenneth Solomon* 14
Serum Concentrations of the Iodothyronines in Elderly Subjects: Decreased Triiodothyronine (T_3) and Free T_3 Index. *Robert H. Caplan, Gary Wickus, James E. Glasser, Kent Davis and Heinz W. Wahner* 19
Changes in Endocrine Activities Relative to Obesity in Patients with Essential Hypertension. *Kunihide Hiramatsu, Takashi Yamada, Kazuo Ichikawa, Tomio Izumiyama and Hajime Nagata* 25
Quinidine Therapy and Digitalis Toxicity. *Dante E. Manyari, Christopher Patterson, David E. Johnson and Libardo J. Melendez* 31
Phenytoin Concentrations in Venous versus Capillary Blood of Geriatric Patients. *Greg S. Umstead and Thomas McKernan* 34
Geriatric Hypochondriasis: Situational Factors. *T. L. Brink, C. Janakes, and N. Martinez* 37
Bronchogenic Carcinoma Associated with Chronic Lymphatic Leukemia. *Patil S. Shankar* 40
Intermittent Claudication: Importance of Etiologic Differentiation as an Aid in Selecting Therapy. *E. Wayne Massey and Barbara Scherokman* 43
Isotopic Scanning of Bone in the Diagnosis of Osteomalacia. *G. S. Rai, S. G. P. Webster and E. P. Wraight* 45

NO. 2, FEBRUARY 1981

Peripheral Neuropathy in the Elderly: A Clinical and Electrophysiologic Study. *C. Y. Huang* 49
Cancer Stage-to-Age Relationship: Implications for Cancer Screening in the Elderly. *Frederick F. Holmes and Erwin Hearne III* 55
Shoulder-Hand Syndrome: Importance of Early Diagnosis and Treatment. *Dong S. Chu, Claudio Petrillo, Sanders W. Davis and Rodolfo Eichberg* 58
Quantitative Clinicopathologic Study of Cerebral Amyloid Angiopathy. *Janos Kurucz, Rene Charbonneau, Anna Kurucz and Patricia Ramsey* 61
Endoscopic Papillotomy in the Geriatric Patient with Complicated Biliary-Tract Disease. *R. A. Kozarek and R. A. Sanowski* 70
Burns in Older Patients. *Harvey Slater and John C. Gaisford* 74
Deep Posterior Tibial Compartmental Syndrome after Accidental Hypothermia in an Elderly Hypothyroid Patient. *N. K. Coni* 77
Problems of Families Caring for Alzheimer Patients: Use of a Support Group. *Robert F. Barnes, Murray Raskind, Monte Scott and Colleen Murphy* 80
Intra-Institutional Relocation: Measured Impact upon Geriatric Patients. *Lawrence B. Haddad* 86
Conjoint Therapy of Psychiatric Problems in the Elderly. *John LaWall* 89
A Behavior Management Program to Increase Social Responses in Psychogeriatric Patients. *Alfred J. Nigl and Basil Jackson* 92
The American Geriatrics Society—Announcements 96

NO. 3, MARCH 1981

Quantitative Bone Assessments: Applications and Expectations. *Rivka Black Sandler and David L. Herbert* 97
Exercise and Skeletal Health. *John F. Aloia* 104
Acute and Rapidly Progressive Forms of Glomerulonephritis in the Elderly. *Alejandro Darnell, Alberto Torras and Luis Revert* 108
Evaluation of Continuing Education for Long-Term Care Personnel: Impact upon Attitudes and Knowledge. *Eleanor Almquist, Shayna Stein, Audrey Weiner and Margaret W. Linn* 117
Screening for Hypertension in an Elderly Population: Report from the Dunedin Program. *William E. Hale, Ronald G. Marks and Ronald B. Stewart* 123
Paraplegia and Quadriplegia in the Elderly Due to Spinal Cord Lesions: Association with Malignancy. *Maria L. Cox, Susan J. Ogle and H. Malcolm Hodkinson* 126
The "Elephant Man" of Cambridge. A Case Report of Neurofibromatosis. *G. S. Rai and N. K. Coni* 129
Alcohol Problems in the Elderly. *John P. Wattis* 131
First-Year Medical Students and the Aging Patient: A Curricular Model. *Lissy F. Jarvik, Claire Ross, Jill Klessig and Pamela Hoff* 135
Reports of American Geriatrics Society Meetings 135
Nominations for AGS Officers and Directors 29

NO. 4, APRIL 1981

Diuretics and the Institutional Elderly: A Case against Routine Potassium Prescribing. *Philip J. Henschke, J. David Spence and Ronald D. T. Cape* 145
Cerebral Amyloid Angiopathy in the Elderly. *Masanori Tomonaga* 151
Quantitative Clinicopathologic Study of Senile Dementia. *Janos Kurucz, Rene Charbonneau, Anna Kurucz and Patricia Ramsey* 158
Senile Dementia: Combined Pharmacologic and Psychologic Treatment. *Jerome A. Yesavage, James Westphal and Leonard Rush* 164
A Standardized Approach to Parenteral Nutrition for the Geriatric Patient. *Robert K. Ausman* 172
Hypernatremia in the Elderly: Relation to Infection and Mortality. *John M. Mahowald and David U. Himmelstein* 177
Mortality among Elderly Psychiatric Patients: Basis for Preventive Intervention. *Thomas J. Craig and Shang P. Lin* 181
Osteochondral Graft in the Treatment of Osteonecrosis of the Femoral Condyle. *A. Ganel, A. Israeli, H. Horoszowski and I. Farine* 186
Prevalence of Knee Chondrocalcinosis in Hospital and Clinic Patients Aged 50 or Older. *Michael H. Ellman, Nancy L. Brown and Bertram Levin* 189

NO. 5, MAY 1981

Hypertension in the Elderly: The Time Has Come to Treat. *Alan M. Radin and Henry R. Black* 193
Gastric Emptying Rate in the Elderly: Implications for Drug Therapy. *Mark A. Evans, Edward J. Triggs, Matthias Cheung, Gerald A. Broe and Helen Creasey* 201
Value of Admission Profile Tests for Prognosis in Elderly Patients. *H. Malcolm Hodkinson* 206
Urinary Dysfunction in a Geriatric Long-Term Care Population: Prevalence and Patterns. *M. A. S. Jewett, G. R. Fernie, P. J. Holliday and M. E. Pim* 211
Evaluation of the Clinical Use of Serum Digoxin Radioimmunoassays. *M. Theresa Volpone and Don C. McLeod* 215
Clinical Hypothyroidism in the Elderly—A Preventable Disorder? *Robert L. Rosenbaum and Uriel S. Barzel* 221
Perforated Peptic Ulcer in the Elderly. *Edwin Kane, Gregory Fried and Charles K. McSherry* 224

Transtracheal Aspiration in the Severely Ill Elderly Patient with Bacterial Pneumonia. *S. L. Berk, S. A. Holtsclaw, A. Kahn and J. K. Smith* 228
Comparison of Silver Sulfadiazine, Povidone-Iodine and Physiologic Saline in the Treatment of Chronic Pressure Ulcers. *John O. Kucan, Martin C. Robson, John P. Heggers and Francis Ko* 232
Predictability of Methenamine Efficacy Based on Type of Urinary Pathogen and pH. *Milap C. Nahata, Britt A. Cummins, Don C. McLeod and Richard Butler* 236
Books 240

NO. 6, JUNE 1981

Ethical Confrontations in the Incapacitated Aged. *Ralph Goldman* 241
Multiple Lesions in Stroke Patients: A Study in Morbid Anatomy. *Trevor H. Howell* 246
Bromocriptine and Its Use in Parkinsonism. *Margaret M. Hoehn* 251
Perhexiline Maleate As a Cause of Reversible Parkinsonism and Peripheral Neuropathy. *Michael Gordon and Allan S. Gordon* 259
Monitoring Digoxin Therapy in Two Long-Term Facilities. *Barry L. Carter, Ralph E. Small and William R. Garnett* 263
Infected Aortic Aneurysm. *Tom J. Wachtel and Nirupama Padiyar* 269
Selected Physiologic and Drug Effects on Serum Uric Acid Levels in an Elderly Population. *Richard L. Yost, Ronald B. Stewart, William E. Hale and Ronald G. Marks* 273
Consistency in Patients' Health and Treatment Expectations at a Geriatric Clinic. *Tom Hickey and William Rakowski* 278
Development of a Geriatric Behavioral Self-Assessment Scale. *Jerome A. Yesavage, Michael Adey and Paul D. Werner* 285

NO. 7, JULY 1981

Sleep-Wake Disorders in the Elderly: A Polysomnographic Analysis. *Richard M. Coleman, Laughton E. Miles, Christian C. Guilleminault, Vincent P. Zarconi, Jr., Johanna van den Hoed and William C. Dement* 289
The Masculine Gender Role and Its Implications for the Life Expectancy of Older Men. *Kenneth Solomon* 297
Plasma Aldosterone Response to Angiotensin II in Sodium-Restricted Elderly Subjects with Essential Hypertension. *Shinpei Morimoto, Kenzo Uchida, Masaji Miyamoto, Toshikazu Kigoshi, Toshio Morise, Hiroaki Takimoto and Ryoyu Takeda* 302
Social Support and Alternatives to Institutionalization for the At-Risk Elderly. *Ada M. Lindsey and Elizabeth M. Hughes* 308
Porphyria in the Elderly: Case Reports. *V. R. Pearce and B. Payne* 316
Nosocomial Pneumococcal Pneumonia in the Elderly. *S. L. Berk, G. M. Gallemore and J. K. Smith* 319
Detrimental Incidents, Including Falls, in an Elderly Institutional Population. *Glenice Berry, Rory H. Fisher and Sandra Lang* 322
